DETAILED ACTION

This Office action is in response to the amendment filed February 12, 2004 in which claims 1-27 were canceled and claims 28-81 were added.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 35, 41, 52, 62, 69, 79 and their dependents are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.

The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The original filed specification and claims, claim 10 for instance, do not support benzene, o-xylene, m-xylene, p-xylene, cyclohexane, hexane, octanes, nonane, 2-cycle oil, gasoline and resid fuel as a diluent for the additive composition. The specification teaches that these compounds are used as solvents.

3. Claims 28, 48, 49, 54, 55, 58, 59, 64, 65, 73, 75, 76, 81 and their dependents are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 1714

Claims 28, 48, 58, and 75 are rejected because it is not clear how the vegetable oil and nut oil thermal stabilizers differ from the plant oil extract derived from grain.

Vegetables and nuts are also grains.

Claims 49 and 54 are substantial duplicates.

In claims 55 and 65, "addition" should read – additive --.

Claims 59 and 64 are substantial duplicates.

In claim 73, "feed" should read – fuel – and "addition" should read – additive --.

Claims 76 and 81 are substantial duplicates.

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
